PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering undergraduate with a strong foundation in Java, Python, Data Structures and Algorithms, Object-Oriented Programming, SQL, and Web Development. Hands-on experience developing academic and personal projects using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript. Strong problem-solving, analytical, and debugging skills with a willingness to learn new technologies and adapt to diverse roles in the technology industry.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python
- **Web Technologies:** HTML5, CSS3, JavaScript, JSP, Servlets
- **Database Technologies:** SQL, MySQL, JDBC
- **Developer Tools:** Git, GitHub, VS Code, Apache Tomcat
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

INTERNSHIP EXPERIENCE

Frontend Development Intern

July 2026

CodeAlpha – Remote

- Developed **three responsive web applications** using HTML5, CSS3, and JavaScript, focusing on structured implementation and user-friendly interfaces.
- Built an **Image Gallery, Calculator, and Music Player**, implementing DOM manipulation, input validation, interactive features, and responsive design.
- Debugged and tested web applications to identify and resolve UI, functionality, and input-handling issues and verify expected behavior.

PROJECTS

Courier Tracking System

GitHub

Tech Stack: *Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat*

- Developed a web-based courier management system with separate **User and Admin modules** for courier booking, shipment tracking, and delivery management.
- Implemented **CRUD operations** to create, retrieve, update, and delete courier and shipment records.
- Implemented **user registration and authentication**, unique Tracking ID generation, shipment status tracking, tracking history, and delivery confirmation.
- Integrated **MySQL with Java using JDBC** to perform database operations and manage user, courier, shipment, and delivery data.

AI-Based Resume Screening and Job Recommendation System

Tech Stack: *Python, Machine Learning, NLP, Flask, MySQL, HTML, CSS, JavaScript*

- Developed an AI-based platform to analyze resumes and match candidate profiles with relevant job descriptions using Machine Learning and NLP techniques.
- Implemented resume parsing and skill extraction to identify candidate qualifications, technical skills, and relevant experience.
- Developed a candidate-job matching and ranking system to determine compatibility and recommend suitable job roles.
- Integrated Flask with MySQL to manage candidate profiles, job descriptions, extracted skills, and application data.

CERTIFICATIONS

- **HackerRank Java Basic** – HackerRank, 2026
- **PCAP: Programming Essentials in Python** – Cisco Networking Academy, 2024

ACHIEVEMENTS

- **2nd Place – Cultural Dance Performance**, UDBHAV Fest 2025, Vidya Jyothi Institute of Technology
- **3rd Rank – JEE Topper**, College-Level Competitive Examination

EDUCATION

Vidya Jyothi Institute of Technology (VJIT), Hyderabad, Telangana

2023 – 2027

B.Tech in Computer Science and Engineering

CGPA: 8.50/10.0

Jaagruthi Junior College, Hyderabad, Telangana

2021 – 2023

Intermediate (MPC)

Percentage: 96.1%
